

## LP-SGW2404F IPv6 Ready Release Note for Firmware Revision 1.1.0 Build 20141106 Rel.54850(n)

LPSGW2404F\_RN\_ENB01W

### LP-SGW2404F IPv6 Ready Release Note for Firmware Revision 1.1.0 Build 20141106 Rel.54850(n)

Included Functions in this release:

- IPv6 (Internet Protocol version 6).
- Support of HTTPS connection for IPv6.
- IPv6 Multicast Address.
- Snooping IPv6 multicast control packets. MLD snooping.
- The Multicast Table function is implemented on the IPv4 Multicast Table and IPv6 Multicast Table pages.
- Enter the IP address of the destination node for Ping test. Both IPv4 and IPv6 are supported.
- Enter the IP address of the destination device. Both IPv4 and IPv6 are supported.
- Provides SSH v1/v2, SSL 2.0/3.0 and TLS v1 for access encryption for both IPv4 and IPv6.
- Simple Network and Management Protocol (SNMP) can be configured over IPv6 transport.
- + IPv6 supports stateless auto-configuration to manage link, subnet, and site addressing changes.
- + DHCPv6 enables switch to receive configuration parameters, such as IPv6 network addresses from DHCPv6 servers.
