

LP-3W200 Modular 3 Way Tee
for raceways with 38.1 mm x 38.1 mm (1 ½ x 1 ½ inches) section.

LP3W200_SS_ENB01W

Features

- Low cost solution for deriving surface-mounted structured cabling from a main raceway path (3 ways).
- Compatible with the same section raceways.
- Facilitates installation of Category 5e, 6, 6A, 7, and fiber optic distribution.
- Section: 38.1 mm x 38.1 mm (1 ½ x 1 ½ inches).
- Material UL94V-0.

LPT-3W200
Modular 3 Way Tee
for raceways with 38.1 mm x 38.1 mm
(1 ½ x 1 ½ inches) section.

The **LP-3W125** is a fitting called modular 3 Way Tee, compatible with the same section raceways: 38.1 mm x 38.1 mm (1 ½ x 1 ½ inches).

It is a very elegant and functional solution to serve as a joint to three raceways to derive wiring from a main path in structured cabling protection of commercial, industrial, or residential environments.

The Tee is part of our line of products and fits precisely on the raceways of its size.

Can be painted with a latex based paint, easy to install and use.

Manufactured with fire resistant PVC, UL94V-0 compliant. It holds, guides, and protects wires carrying up to 600 Volt.

It is possible to supply them in custom colors by special order.

A Specifications

Model	LP-3W200
Material	PVC
UL classification	UL94V-0
Color	White
Parts	1
Ways	3
Mounting	Pressure
Uses	Voice, data, coax, audio, video, optical fiber (up to 600 VAC)
Dimensions	Width: 38.1 mm (1 1/2") Height: 38.1 mm (1 1/2")

B How to Order

LP-3W200 Modular 3 Way Tee for raceways with a 38.1 mm x 38.1 mm (1 1/2 x 1 1/2 inches) section.
