**LP-FE125
90° Flat Elbow for Raceways
with a section of 31.75 mm x 11.11 mm
(1 ¼ x 7/16 inches).**

The **LP-FE125** is a fitting known as a 90° flat elbow compatible with raceways of the same section: 31.75 mm x 11.11 mm (1 ¼ x 7/16 inches).

It is a very elegant, functional, and affordable solution to turn 90° the cabling direction with raceways in structured cabling protection of commercial, industrial, or residential environments.

It is part of our line of products and fits precisely on the raceways of its size.

Can be painted with a latex-based paint, easy to install and use.

The fitting is manufactured with fire resistant PVC, UL94V-0 compliant. It holds, guides, and protects wires carrying up to 600 Volt.

It is possible to supply them in custom colors by special order.
