LP-JC200

Joint Cap for Raceways with a section of 38.1 mm x 38.1 mm (1½ x 1½ inches).

The **LP-JC200** is a fitting known as joint cap compatible with raceways of the same section: 38.1 mm x 38.1 mm (1½ x 1½ inches).

It is a very elegant, functional, and affordable solution to cover the joint between two raceways in structured cabling protection of commercial, industrial, or residential environments.

It is part of our line of products and fits precisely on the raceways of its size.

Can be painted with a latex-based paint, easy to install and use.

The fitting is manufactured with fire resistant PVC, UL94V-0 compliant. It holds, guides, and protects wires carrying up to 600 Volt.

It is possible to supply them in custom colors by special order.
