LP-RU07112208PPDU
19-inch Rack-Mountable Power Distribution Unit (PDU)
with eight (8) Universal flat/round Outlets, 110/220V,
Illuminated on/off Switch with Finger Guard. 1U height.

The **LP-RU07112208PPDU** Power Distribution Unit (PDU) by LanPro is an excellent option for applications that require a mains feeder in the back of large 19-inch cabinets and racks that come non-filtered.

This PDU unit comes enclosed in a robust anodized aluminum enclosure and carries eight (8) Universal flat/round outlets, 110/220V.

This device has been designed for 19-inch-wide rack mounting. A 2m long mains cable.

Applications:

The **LP-RU07112208PPDU** by LanPro is an excellent option for those applications that require a main feeder in the back of large cabinets or racks that are to be connected to the unprotected electric mains. The universal outlet fitted on this PDU allows the use in 110 or 200V systems, 50 or 60Hz. LED indicator switch is included.

A Specifications

Rated Current	16A
Rated Power	2500W
Model	LP-RU07112208PPDU
PDU Height	1U
Shell Material	Aluminum
Copper Material	Precision Phosphor bronze, better toughness than ordinary brass
Conductor Material	3x2.5mm bronze wire inside
Maximum Voltage	250V
Exterior Color	Black
Cable Length	2m
PDU Length	19 inches
Product Features	Built-in switch
