LP-RU07KMIPMOD - KVM IP Module

LPRU07KMIPMOD_SS_ENB01W

Features:

- Resolution: 1920x1080@60Hz.

- Transmission standard: 100/1G.

- Based on WEB UI

LP-RU07KMIPMOD - KVM IP Module

This module allows our KVM to operate over IP platforms making this way full use of existing Ethernet networks to replace dependence of special cables and signal systems.

Based on IP protocol eliminates the distance of traditional analog KVM system and other restrictions, And therefore achieve flexible centralized management.

BIOS level connection is no limited by operating system, and its applicable to many models of servers, PC system and operating systems. Support remote key combination scheme. 100/1G network transmission standard.

Remote resolution can reach to 1920x1080@60HZ. Support screen zoom function with arbitrary proportion. Base on WEB UI, convenient for customer to access under different operation system. No compromise on the platform selected. Support remote online update.

A Specifications:

Model No.		LP-RU07KMIPMOD	
Control Port	Keyboard	RJ45 port x 1	
	Mouse		
	Video		
Input Port	Keyboard	HD15F/integration port x 1 (VGA video, USB mouse/keyboard, PS/2mouse/keyboard)	
	Mouse		
	Video		
Power Supply Port		DC-5.5*2.1	
Reset		Network Re-connect	
Default		Initialize IP module default IP address, administrator name and initial password	
LED Indicator		Power indicator	
Max Resolution		1920 x 1080@60Hz	
Power Supply		DC 12V 1000mA	
Operating Temperature		0-50°C	
Storage Temperature		-20°C-60°C	
Housing		Metal	
Weight		0.5kg	
Dimensions(L x W x H)		162*78*30mm	

B How to Order:

LP-RU07KMIPMOD	KVM IP Module
