LPT-223C Spring-Loaded Cable Cutter and Stripping Tool.

The LPT-223C by LanPro is a very practical precision straight cutter and wire stripper, made of hardened carbon steel.

The adjustable stripper has a sliding screw which enables the user to adjust the cable stripping diameter up to AWG #10 (6.0 mm). The integral steel spring and cushioned grips make the unit comfortable to use even over prolonged periods.

The LPT-223C is ergonomically designed, with bright-colored yellow soft PVC grips for tireless work. It is easy to locate on the workbench.

Length: 5.3 inches (132 mm). Material thickness: 3.0 mm.
