# LP-VR707CTXX  VersaLine High Density Rack/Wall mountable Vertical or Horizontal Cable Trays with Snap-On Fixation and Solid Snap On Cover or mini-retainers in Black Color and several capacities.

## Features

■ **Comprehensive wire management:**
VersaLine High Density trays are available in the vertical configuration. They can be attached to open racks/frames, in seconds with snap buttons if your rack is a VersaLine model, or to a wall using adequate anchors, with options for front or back-to-back configurations. They provide excellent cable management regardless of the support technique used.

■ **Capacity:**
Available at this moment in three (3) different sizes, for 300, 500 and even 1000 cables. (Please see the table for more details).
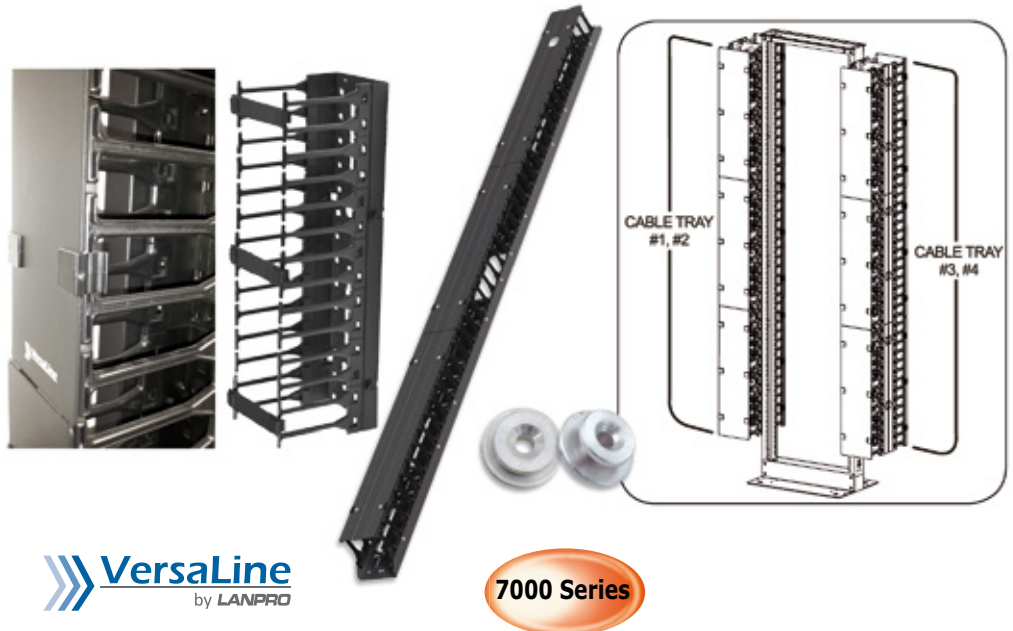

■ **Scope:**
A wrong Cable management has a serious impact on your data transmissions. Poorly managed cables can adversely affect a network throughput, while poorly arranged patch cords can make cabling moves, additions and changes are difficult to achieve.

■ Available from 2m high and depths of 6", 10" and 12" double or single.

■ Continuous access for cable routing on the front and rear.

■ Door type covers.

## LP-VR707CTXX
### VersaLine High Density Rack/Wall mountable Vertical or Horizontal Cable Trays with Snap-On Fixation and Solid Snap On Cover or mini-retainers in Black Color and several capacities
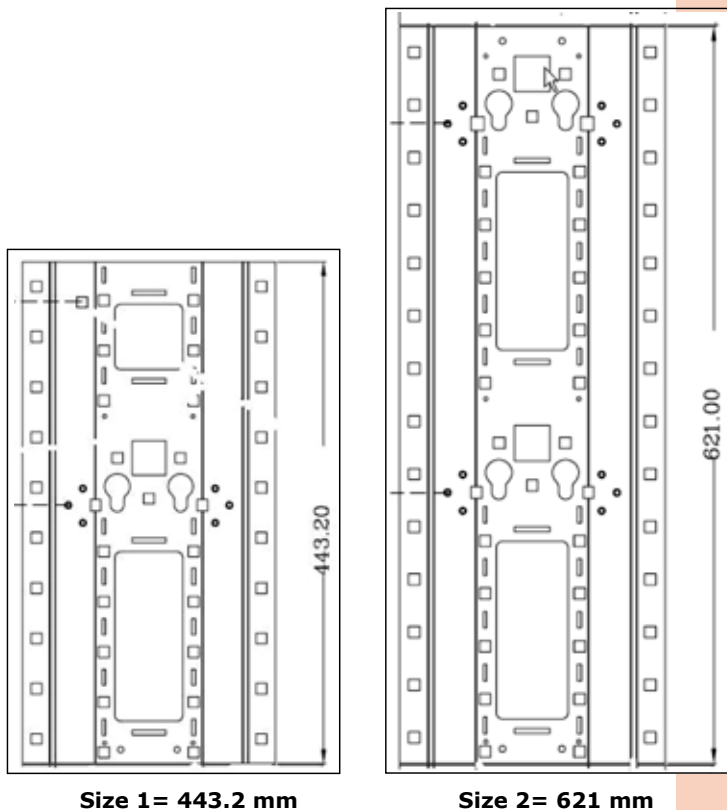

The new model of VersaLine High Density Cable Trays, the **LP-VR707CTXX** series, with its excellent design, ensures that the Structured Cabling installations will be properly managed and organized for today's high-speed/density data installations. It also optimizes the network throughput. The innovative design features unique fingers to promote effective access as well as a proper bending radius management while maintaining user-friendly operation. The covers for the wire managers feature a unique latching system that allows them to be swiveled to both sides (right of left) or even to be removed completely to better access to the cable bundles. There are also a mini-cable reatainers instead of complete covers.

These cable trays are elegant and neat enough to be placed in open areas, offices and other locations that require a professional appearance towards the public and users.
