

LP-VR71042 VersaLine 7000 Series 42 U Two Post OpenRack with 600 mm width and 600 mm depth.

LPVR71042 _SS_ENB01W

Features

- Supports up to 661.3 lb (300 Kg) of rack-mount equipment.
- Flat-packed design reduces handling costs.
- Easy assembly at the point of installation for rapid deployment.
- Full steel construction for superior durability and stability.
- Mount standard networking equipment using standard cage nuts and screws.
- Conforms to EIA - 310D.
- Durable powder epoxy coating.
- Bolts directly to floor through prepared access points or with Casters.
- Self-Squaring design.
- U markings printed on 19" rails for easy location.
- Button holes for easy installation of Cable management ducts and/or Power Distribution Units (PDU's).
- Cable management hoops included.

LP-VR71042 VersaLine 7000 Series 42 U Two Post OpenRack with 600 mm width and 600 mm depth.

The **VersaLine LP-VR71042** 42 U two (2) Post Open Frame Rack fully made of steel provides greater durability and stability, reducing the need of concrete mounting kits.

A cost-effective solution for mounting network equipment and telecom equipment, this two post rack features **Tool-Less** holes for button mounted cable managers or Power Distribution Units (PDU's) and square mounting holes on the frame that allow you to easily mount ANSI/EIA RS-310-D compliant network equipment without additional hardware. Package also includes Cable management hooks (Rings).

Easy to deploy, the **VersaLine LP-VR71042** two post open frame rack can be assembled in minutes and is backed by LanPro's Lifetime Warranty - ensuring a permanent Server/Telecom storage solution.

Our multiuse two post rack **VersaLine LP-VR71042** is a cost and space effective way to install a variety of 19" equipment. Intended primarily for patch panels or network switching equipment, the two post rack can also be fitted with shelves to support equipment.

A Applications

Server rooms or other locations where telecomm and networking equipment need to be housed.
