## LP-3317XXYY2 Flat Faceplates with ID windows

The LanPro Flat Faceplate with ID windows series are a leap forward in design for a better installation.

In regard with the user, the window and the labeling of the port type facilitates its identification.

The combined high-capacity with multiple connectors, the possible use of different standard jacks and of our line of iMC® Modular Compatibility components make these faceplates the practical choice. Perfect for shielded systems.

They are totally compatible with phone standards as well as CAT 3, CAT 5, CAT 5e, CAT 6, CAT 6A and CAT7 systems.

The ID windows and labels make for a better front looking and identification, dust caps are available to cover unused ports.

These plates have standard American sizing and are suitable for use in any standard American Style application.

Made of durable UV resistant ABS plastic, they are available in vertically mounted versions.

They are available in three (3) models: 1 Port, 2 Ports and 4 Ports.
