### LP-C6I10GRC

**LanPro Reliable® Shielded CAT 6 SF/UTP Network Cable,  
CM-rated with Stranded 100% Copper Conductors AWG  
26 and Gray jacket in 1000 ft. (305m) wood spool**

The LP-C6I10GRC LanPro Reliable® Shielded CAT 6 SF/UTP Network Cable, CM-rated with Stranded 100% Copper Conductors AWG 26 and gray jacket in 1000 ft. (305m) wood spool is the answer given by LanPro to the large demand imposed by today's high performance applications at reasonable prices.

Tested to well over 250 MHz, the guaranteed performance of this cable meets the ANSI/TIA-568-C.2, ISO/IEC 11801, UL 1685 (UL 1581, Sec. 1160) Vertical-Tray, CSA FT1 requirements, UL registered E329019, making it ideal for transmission links supporting today's networking protocols.

UL certified for CM commercial applications, the unshielded LanPro Reliable® CAT 6 U/UTP Network Cable is available for immediate delivery in gray color, other colors available under request.

Reliable® CAT 6 is ETL approved 4003289.

**A Applications**

Shielded LanPro Reliable® CAT 6 SF/UTP Network CM-rated is intended for Gigabit Ethernet, 100BASE-Tx, token-ring, 155 Mbps ATM, 100 Mbps TP-PMD, ISDN, analog (Broadband, Baseband), digital video and Voice over IP(VoIP), it can also be used for Video surveillance IP cameras.

**Important Note:**

Shielded LanPro Reliable® CAT 6 SF/UTP Network CM-rated belongs to a class of General Purpose cables, and may be used anywhere in commercial buildings other than areas where Riser or Plenum cables are required. The cables are flame tested and held to a lower standard than either Riser or Plenum cables. The chemicals used to produce such stopping of fire propagation need substances that have high quantities of halides.

When taking fire, CM cables generate fumes that contain these halides which react with water present in the environment and producing hydrochloric acid, a very irritant mist that produces suffocation when inhaled. LanPro recommends caution on the use of CM in public places.
