HIGH PERFORMANCE NETWORK CABLE

PERFORMAX

LP-CA780BKC LanPro Performax® Shielded CAT 6A U/FTP Outdoor Network Cable, solid AWG 23 100% copper, Double Jacket (Black PE plus Gray CM), Drain wire and ripcord in a 1000 ft. (305m) wood spool.

LanPro manufactures high performance CAT 6A cables for outdoor usage. The external jacket is made of Polyethylene (PE) with a high resistance to external agents like humidity, UV radiation and high temperatures resulting in a long lasting operation. The external jacket offers also positive protection to corrosion, erosion and friction.

This cable is constructed with a four(4) U/FTP of AWG 23 100% Copper conductors shielded with an Aluminum/Mylar film layered over each pair, yielding and U/FTP structure. With a 100% copper and tinned drain wire in contact with the shield all over the length of the cable, resulting in the reduction of electromagnetic interference found in hostile environments. All of these features make this cable highly recommended for outdoor connection to outdoor radios and wireless equipment.
Outdoor CAT 6A cables from LanPro are approved as per the ISO/IEC11801 standard and following the TIA/EIA 568-C.2 specifications for Category 6A cables.

Used for Gigabit Ethernet, 10GBASE-T, 100Base-Tx, token-ring, 155 Mbps ATM, 100 Mbps TP-PMD, ISDN, (broadband, analog baseband), digital video and voice over IP (VoIP), it can also be used for IP video surveillance cameras.
