

**LP-F2103136121BK Type 3 Fan-Out Kit for Round Tube Fiber Cable with 12 Cores and 36 inch long LSZH rated 0.9 mm buffer tube colored legs in a black color Enclosure for Indoor use.**

LPF2103136121BK\_SS\_ENB01W

### Features

- For terminating 12 Fiber Round Tube Cables.
- Length 36 inches.
- Eliminates strain on fibres by isolating them from tensile forces.
- Bend radius is limited by the tubing.
- Snap together furcation enclosure, eliminates epoxy filler adhesive for indoor kits, black colored.
- Compact design.
- Fiber routing capabilities are excellent for better fiber management.
- Are quick and easy to install.
- Wide temperature compensation.
- Optimized for indoor field termination of cables.
- Temperature range of 0° to +70°C (+32° to +158°F).

Type 3 Fan-Out Kit for Round Tube Fiber Cable with 12 Cores and 36 inch long LSZH rated 0.9 mm buffer tube colored legs in a black color Enclosure for Indoor use.**

The LP-F2103136121BK is a Type 3 Fan-Out Kit for Round Tube Fiber Cable with 12 Cores and 36 inch long LSZH rated 0.9 mm buffer tube colored legs in a black color Enclosure for Indoor use.

LanPro Indoor Fan-Out Kits provide our customers with the best practical solution for the field installation of connectors for terminating 6 and 12 fiber buffer tubes.

They are designed to sleeve the 250µm loose tube fibre with a 900 µm buffer tube. They are ideal for indoor cross connects and require no additional space or hardware devices for terminating buffer tubes.

The robust 900 µm fan-out has been color coded in order to facilitate the identification and matching with the individually colored fiber coming from the tube.

There are versions of 6 and 12 fibers and lengths of 25, 36 and 47 inches for your convenience and flexibility needed by your field installation.

Indoor kits are recommended in environments within a temperature range of 0° to +70°C (+32° to +158°F). In applications where colder temperatures are expected, the outdoor version is recommended.
