

LP-F2162IV00 Unloaded FTTH Fiber Access Terminal Box, 1&2 Core

LPF2162IV00_SS_ENB01W

Features:

- Small size and lightweight for easy installation.
- Double-layer design for easy installation and maintenance.
- Three cable entry, available from the top and bottom, easy to choose routing.
- Single-core or dual-core fiber adapter.
- Uses high-quality ABS material with a certain fireproofing performance.
- Dust proof design.
- Applicable with fiber optic cable or indoor cable.
- Adapter Type supported: SC and LC Duplex (Not included).
- 100mmx80mmx24mm.

Application:

- Fiber to the desk (FTTD).
- Fiber to the home (FTTH).
- Fiber to the building (TFFB).
- Local area networks.
- Wide area networks.

LP-F2162IV00 Unloaded FTTH Fiber Access Terminal Box, 1&2 Core

Fiber Optic Adapter Panel is a user terminal product that achieves fiber-to-desktop solutions with a reasonable design of internal space.

For home or work area, complete dual-core fiber access and port output, can fully meet usual requirements of fiber bending radius, and protect the fiber out of the fiber core to provide safe protection. Appropriate radius of curvature, allowing a small amount of redundant fiber inventory, to achieve FTTD (fiber to desktop) system applications.

B How to order
