## Plugs Cat 5e

LanPro, offers only one model of Cat5e plugs.

Our best seller is the LP-8850R, which offers an outstanding combination of performance and low cost.

These plugs allow the field preparation of patch cords in 2, 3 and 4 pair combinations, using solid AWG 26, 24 or 22 cable.

All LanPro plugs have 50 microns of gold plating over nickel alloy, assuring long life and a high degree of resistance against corrosion and environment hazards.

## A How to Order
