- The plugs offer support for phone or voice applications at home or office cabling systems.

**LP-RJ094P4CTLUS  
Headset Telephony Gold Plated  
Modular Plug, Two Pairs.**

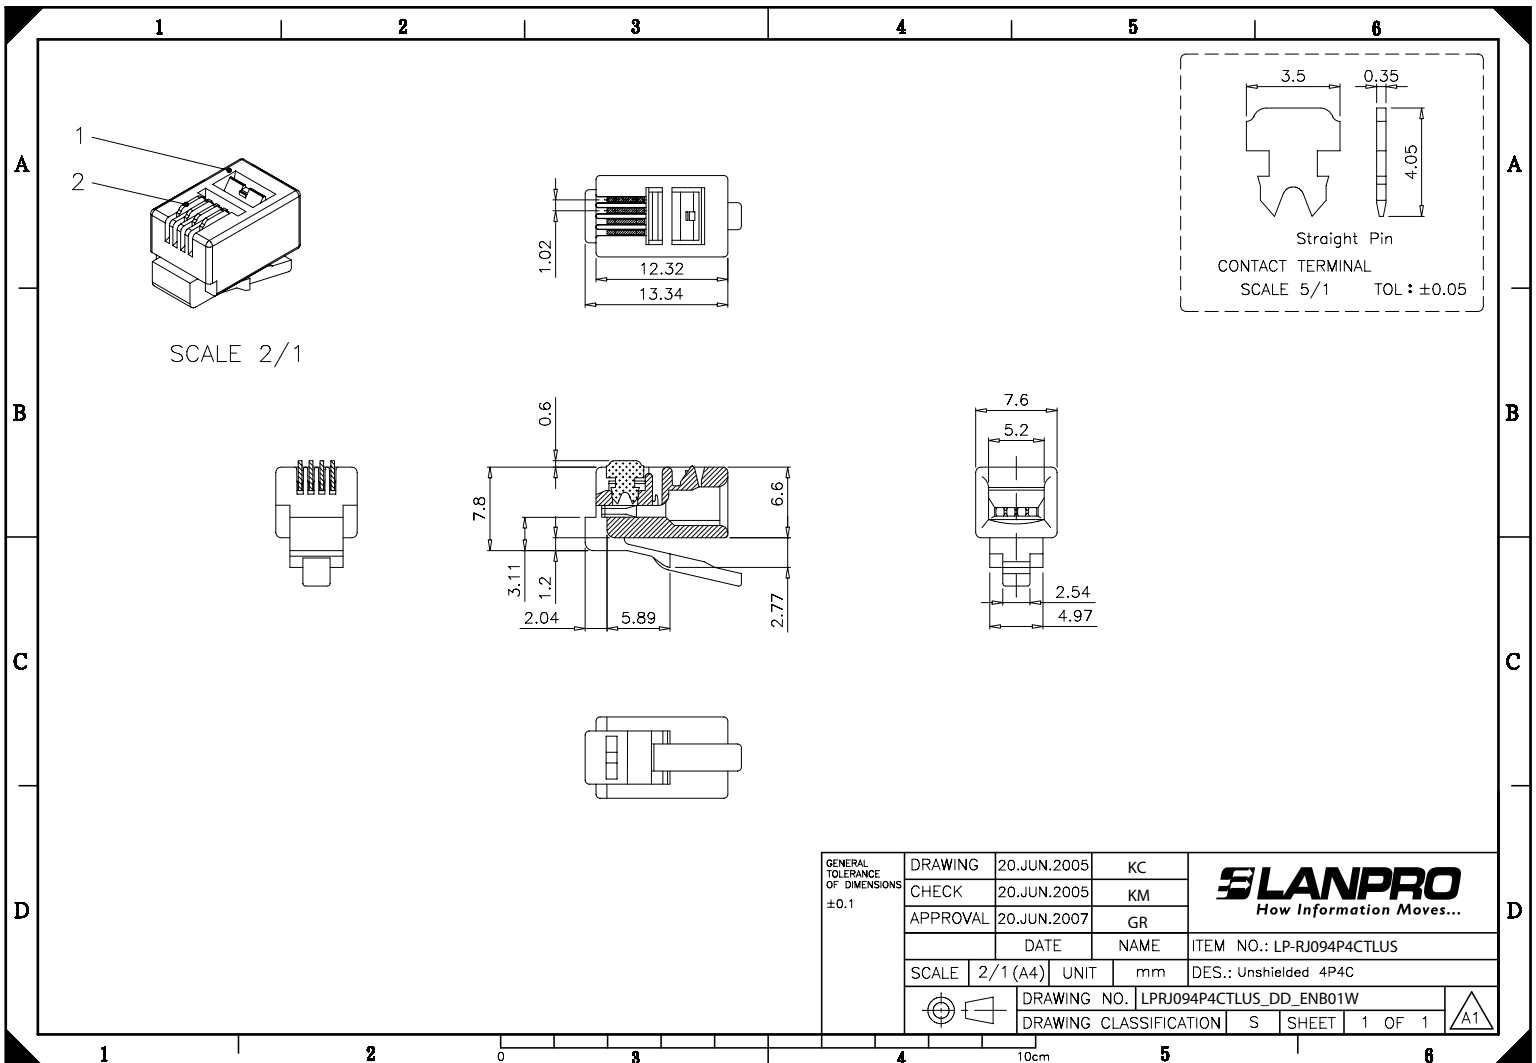

This LanPro telephone plug is mainly used for telephone headset's patch cord cables between the headset and the telephone apparatus.

These plugs allow field preparation using flexible stranded AWG26 to AWG22 cables. With a gold plating surface contact of 50 micro-inches, it assures long life and a high degree of resistance against corrosion and environmental hazards.
