

LP-RJ116P2CCTUS Telephony Gold Plated Modular Plug, One Pair.

LPRJ116P2CCTUS_SS_ENB01W

Features

- Compatible with stranded copper wire.
- 6P2C head style (6 positions, 2 contacts).
- Extremely high quality module plugs.
- Telephone patch cord cables can be made using this plug.
- Gold electrolytic plated contact. 50 micro-inches of gold over 50 micro-inches of nickel for better data transmission and higher signal strength.
- Plugs for stranded copper wire cable.
- Telephony Modular Plug.
- The plugs are used in phone or voice applications at home, or office cabling systems.

**LP-RJ116P2CCTUS
Telephony Gold Plated Modular
Plug, One Pair.**

This LanPro telephone plug is mainly used for making the telephone patch cord cables that connect the telephone apparatus to the telephone company jack.

These plugs allow field preparation by using flexible stranded AWG26 to AWG22 wires. With a gold electrolytic plating surface contact of 50 micro-inches, it assures long life and a high degree of resistance against corrosion and environmental hazards.

A Specifications

■ 1.-Material	1.-Housing: Polycarbonate, UL 94V-2, transparent color. 2.-Contact terminal: Phosphor bronze.
■ 2.-Finish	1.-50 micro-inches of gold electrolytic plating over 50 micro-inch nickel plated on contact area.
■ 3.-Performance	1.-Operating temperature: -40oC to 80oC. 2.-Cable plug tensile strength: 7.7 Kg. 3.-Used for 24-26 AWG stranded wires.
