

**LP-RJ256P6CTLUS Telephony Gold Plated Modular Plug, Three Pairs.**

LPRJ256P6CTLUS\_SS\_ENB01W

**Features**

- Compatible with stranded copper wire.
- 6P6C head style (6 positions, 6 contacts).
- Extremely high quality module plugs.
- Telephone patch cord cables can be made using this plug.
- Gold electrolytic plated contact with 50 micro-inches of gold over 50 micro-inches of nickel for better data transmission and higher signal strength.
- Plugs for stranded copper wire cable.
- The plugs are used in telephone applications at home or office cabling systems.

**LP-RJ256P6CTLUS  
Telephony Gold Plated Modular  
Plug, Three Pairs.**

This LanPro telephone plug is mainly used for making the telephone patch cord cables that connect the telephone apparatus to the telephone company jack.

This plug enables the possibility for the apparatus to have three lines connected to the telephone company.

These plugs allow field preparation using flexible stranded AWG26 to AWG22 cables. With a gold electrolytic plated surface contact of 50 micro-inches, it assures long life and a high degree of resistance against corrosion and environmental hazards.

**A Specifications**

■ <b>1.-Material</b>	1.-Housing: Polycarbonate, UL 94V-2, transparent color. 2.-Contact terminal: Phosphor bronze.
■ <b>2.-Finish</b>	1.-50 micro-inches gold electrolytic plating over 50 micro-inch nickel plated on contact area.
■ <b>3.-Performance</b>	1.-Operating temperature: -40°C to 80°C. 2.-Cable plug tensile strength: 7.7 Kg. 3.-Used for 24-26 AWG stranded wires.
