LP-SRU073111
Horizontal Rack Mountable Cable Management Pass-through Panel, Universal Series with 1U Sleek Profile Height, 19" Width and 42 mm Depth.

Our Sleek Profile Universal Series 19" horizontally mounted cable panels with a 42 mm depth provide the solution to those loose cables in the front of your rack or cabinet.

The all metal electrostatic painted cable management duct with snap-on cover provides the solution so that there are no loose or stressed cables between the different equipment units mounted in Racks or Cabinets.

Available in Simplex section, it can be ordered in two heights to choose from and with enough openings to pass the wires through. It comes in a horizontal fashion.

Finally, a neat looking snap-on cover hides the wiring. All metal sheet.
