LP-F51AXX
LanPro Aluminum Single Tangent support for ADSS cable

Features:

- May be used as a pull-through by removing the bushing inserts.

- Double cable supports option.

- High-strength aluminum.

- Smaller and more compact design.

- Facilitates faster installation.

- Versatile mounting styles to fit different structure types: bolted, banded or standoff.

- Lowers the total cost of installation.

LP-F51AXX
LanPro Aluminum Single Tangent support for ADSS cable

LanPro's Aluminum Single tangent supports for ADSS Cables with various mounting capabilities: bolted, banded or standoff. LanPro's Aluminum Single tangent supports for ADSS Cables reduce installation costs by functioning as a pull-through during installation.
